Regulations pertaining to the master's thesis

Degree: Master of Science

Degree programme: Applied Computer Science and Computer Science

Time period: 6 months

Possibility of extension: Yes, 4 weeks maximum

Workload: 30 ECTS = 900 hours

Description:

1. A master’s thesis topic can only be decided in agreement with an examiner from the Faculty of Engineering. Thesis placements are therefore only possible in co-operation with one of the chairs of the Faculty of Engineering.
2. Group work is not allowed!
3. You are permitted to write your thesis in German or in English. If you choose to write it in English, you must include a German summary.
4. You are required to present your thesis in a final colloquium after submitting it in written form. The presentation is open to members of the University of Freiburg (students and staff).
5. Your thesis will not be published in the sense of how patent law defines publications. You therefore do not need to include a confidentiality clause in your thesis.

For further information, please contact the Examinations Office of the Faculty of Engineering, e-mail: pruefungsamt@tf.uni-freiburg.de, tel: +49 (0)761-203 8083
